WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c," for 2 copies, followed by date of their receipt. "Ad int. res." implies ad interim copyright registration under the law of Mar. 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries, are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 2534 books received and drawn up into the Library of Congress, 598 were of class "a" and 1936 of class "b." Of the 1936 books of this class forwarded from the Copyright Office from November 8, 1909, to January 8, 1910, inclusive, 1641 were sent up on the day they were received, 240 on the day after, and 28 on the second day after.

## BOOKS

### GROUP 1

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries, are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 2657 books received and drawn up into the Library of Congress, 612 were of class "a" and 2045 of class "b." Of the 2045 books of this class forwarded from the Copyright Office from November 8, 1909, to January 13, 1910, inclusive, 1747 were sent up on the day they were received, 242 on the day after, and 29 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "Ad int. res." implies ad interim copyright registration under the law of Mar. 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## BOOKS

### GROUP 1

**Abbott, Natt Thurston, 1873—** *comp.*

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries, are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 3004 books received and drawn up into the Library of Congress, 688 were of class "a" and 2316 of class "b." Of the 2316 books of this class forwarded from the Copyright Office from November 8, 1909, to January 20, 1910, inclusive, 2023 were sent up on the day they were received, 258 on the day after, and 35 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "Ad int. res." implies ad interim copyright registration under the law of Mar. 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries, are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 3209 books received and drawn up into the Library of Congress, 713 were of class "a" and 2496 of class "b." Of the 2496 books of this class forwarded from the Copyright Office from November 8, 1909, to January 27, 1910, inclusive, 2196 were sent up on the day they were received, 263 on the day after, and 37 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "Ad int. res." implies ad interim copyright registration under the law of Mar. 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries, are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 3504 books received and drawn up into the Library of Congress, 734 were of class "a" and 2770 of class "b." Of the 2770 books of this class forwarded from the Copyright Office from November 8, 1909, to February 3, 1910, inclusive, 2456 were sent up on the day they were received, 274 on the day after, and 40 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "Ad int. res." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries, are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 3684 books received and drawn up into the Library of Congress, 749 were of class "a" and 2935 of class "b." Of the 2935 books of this class forwarded from the Copyright Office from November 8, 1909, to February 10, 1910, inclusive, 2619 were sent up on the day they were received, 276 on the day after, and 40 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of this issue, just prior to the index.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## BOOKS

### GROUP 1

#### Abrams, Albert, 1863—

Diagnostic therapeutics; a guide for practitioners in diagnosis by aid of drugs and methods other than drug-giving, by Albert Abrams ... with one hundred and ninety-eight illustrations. New York, Rebman company [1910]

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries, are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 3892 books received and drawn up into the Library of Congress, 774 were of class "a" and 3118 of class "b." Of the 3118 books of this class forwarded from the Copyright Office from November 8, 1909, to February 17, 1910, inclusive, 2797 were sent up on the day they were received, 281 on the day after, and 40 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue for the month.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries, are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 4061 books received and drawn up into the Library of Congress, 789 were of class "a" and 3272 of class "b." Of the 3272 books of this class forwarded from the Copyright Office from November 8, 1909, to February 24, 1910, inclusive, 2944 were sent up on the day they were received, 284 on the day after, and 44 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue for each month, just prior to the index.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## BOOKS

### GROUP 1

#### Abbott, Edith.

Women in industry; a study in American economic history, by Edith Abbott ... with an introductory note by Sophonisba P. Breckinridge ... New York and London, D. Appleton and company, 1910.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 4298 books received and drawn up into the Library of Congress, 807 were of class "a" and 3491 of class "b." Of the 3491 books of this class forwarded from the Copyright Office from November 8, 1909, to March 3, 1910, inclusive, 3153, were sent up on the day they were received, 293 on the day after, and 45 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue for each month, just prior to the index.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 4569 books received and drawn up into the Library of Congress, 830 were of class "a" and 3739 of class "b." Of the 3739 books of this class forwarded from the Copyright Office from November 8, 1909, to March 10, 1910, inclusive, 3390 were sent up on the day they were received, 304 on the day after, and 45 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "E," Class E, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue for each month, just prior to the index.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## BOOKS

### GROUP 1

#### **Alabama.** *Supreme court.*

Report of cases argued and determined ... during the November term, 1908-1909, by Lawrence H. Lee, supreme court reporter. v. 158. Montgomery, Ala., The Brown printing co., 1910.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 4822 books received and drawn up into the Library of Congress, 851 were of class "a" and 3971 of class "b." Of the 3971 books of this class forwarded from the Copyright Office from November 8, 1909, to March 17, 1910, inclusive, 3617 were sent up on the day they were received, 308 on the day after, and 46 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue for each month, just prior to the index.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloging, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 5056 books received and drawn up into the Library of Congress, 860 were of class "a" and 4196 of class "b." Of the 4196 books of this class forwarded from the Copyright Office from November 8, 1909, to March 24, 1910, inclusive, 3839 were sent up on the day they were received, 310 on the day after, and 47 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue for each month, just prior to the index.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 5262 books received and drawn up into the Library of Congress, 861 were of class "a" and 4401 of class "b." Of the 4401 books of this class forwarded from the Copyright Office from November 8, 1909, to March 31, 1910, inclusive, 4044 were sent up on the day they were received, 310 on the day after, and 47 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue for each month, just prior to the index.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 5490 books received and drawn up into the Library of Congress, 867 were of class "a" and 4623 of class "b." Of the 4623 books of this class forwarded from the Copyright Office from November 8, 1909, to April 7, 1910, inclusive, 4257 were sent up on the day they were received, 318 on the day after, and 48 on the second day after.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 5732 books received and drawn up into the Library of Congress, 872 were of class "a" and 4860 of class "b." Of the 4860 books of this class forwarded from the Copyright Office from November 8, 1909, to April 14, 1910, inclusive, 4490 were sent up on the day they were received, 322 on the day after, and 48 on the second day after,

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## BOOKS

### GROUP 1

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 5963 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to April 21, 1910, inclusive, 1250 were of class "a" and 4713 of class "b." The 4713 books of class "a" were sent up on the day they were received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## BOOKS

### GROUP 1

#### **Aked, Charles Frederic, 1864—**

The Lord's prayer, its meaning and message for to-day, by Charles F. Aked ... New York, Chicago [etc.] Fleming H. Revell company [1910]

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 6192 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to April 28, 1910, inclusive, 1258 were of class "a" and 4934 of class "b." The 4934 books of class "b" were sent up on the day they were received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the title of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloging. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 6448 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to May 5, 1910, inclusive, 1290 were of class "a" and 5158 of class "b." The 5158 books of class "b" were sent up on the day they were received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the left and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 6709 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to May 12, 1910, inclusive, 1291 were of class "a" and 5418 of class "b." The 5418 books of class "b" were sent up on the day they were received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 6924 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to May 19, 1910, inclusive, 1295 were of class "a" and 5629 of class "b." Of the 5629 books of class "b" each book was sent up on the day it was received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

# BOOKS

## GROUP 1

### Allen, Alfred Henry.

Allen's commercial organic analysis; a treatise on the properties, modes of assaying, and proximate analytical examination of the various organic chemicals and products employed in the arts, manufactures, medicine, etc. ... v. 2 ... 4th ed. ... ed. by Henry Leffmann ... and W. ## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 7200 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to May 26, 1910, inclusive, 1302 were of class "a" and 5898 of class "b." Of the 5898 books of class "b" each book was sent up on the day it was received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

1910

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 7402 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 2, 1910, inclusive, 1306 were of class "a" and 6096 of class "b." Of the 6096 books of class "b" each book was sent up on the day it was received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 7630 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 9, 1910, inclusive, 1310 were of class "a" and 6320 of class "b." Of the 6320 books of class "b" each book was sent up on the day it was received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuuls, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## BOOKS

### GROUP 1

#### **American digest.**

... 1906 decennial ed. of the American digest; a complete digest of all reported cases from 1897 to 1906. v. 16, Penalties—Railroad land grants. St. Paul, West publishing co., 1910.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 7802 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 16, 1910, inclusive, 1325 were of class "a" and 6477 of class "b." Of the 6477 books of class "b" each book was sent up on the day it was received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## BOOKS

### GROUP 1

#### [Abbott, Holker] 1858—

The silver wedding of the Bear; a memorial of the celebration of the twenty-fifth anniversary of the Tavern club, 15 January 1909. Boston, Priv. print., 1910.

PART 1, GROUP 1

**BOOKS**

---

New Series, Volume 7, Group 1

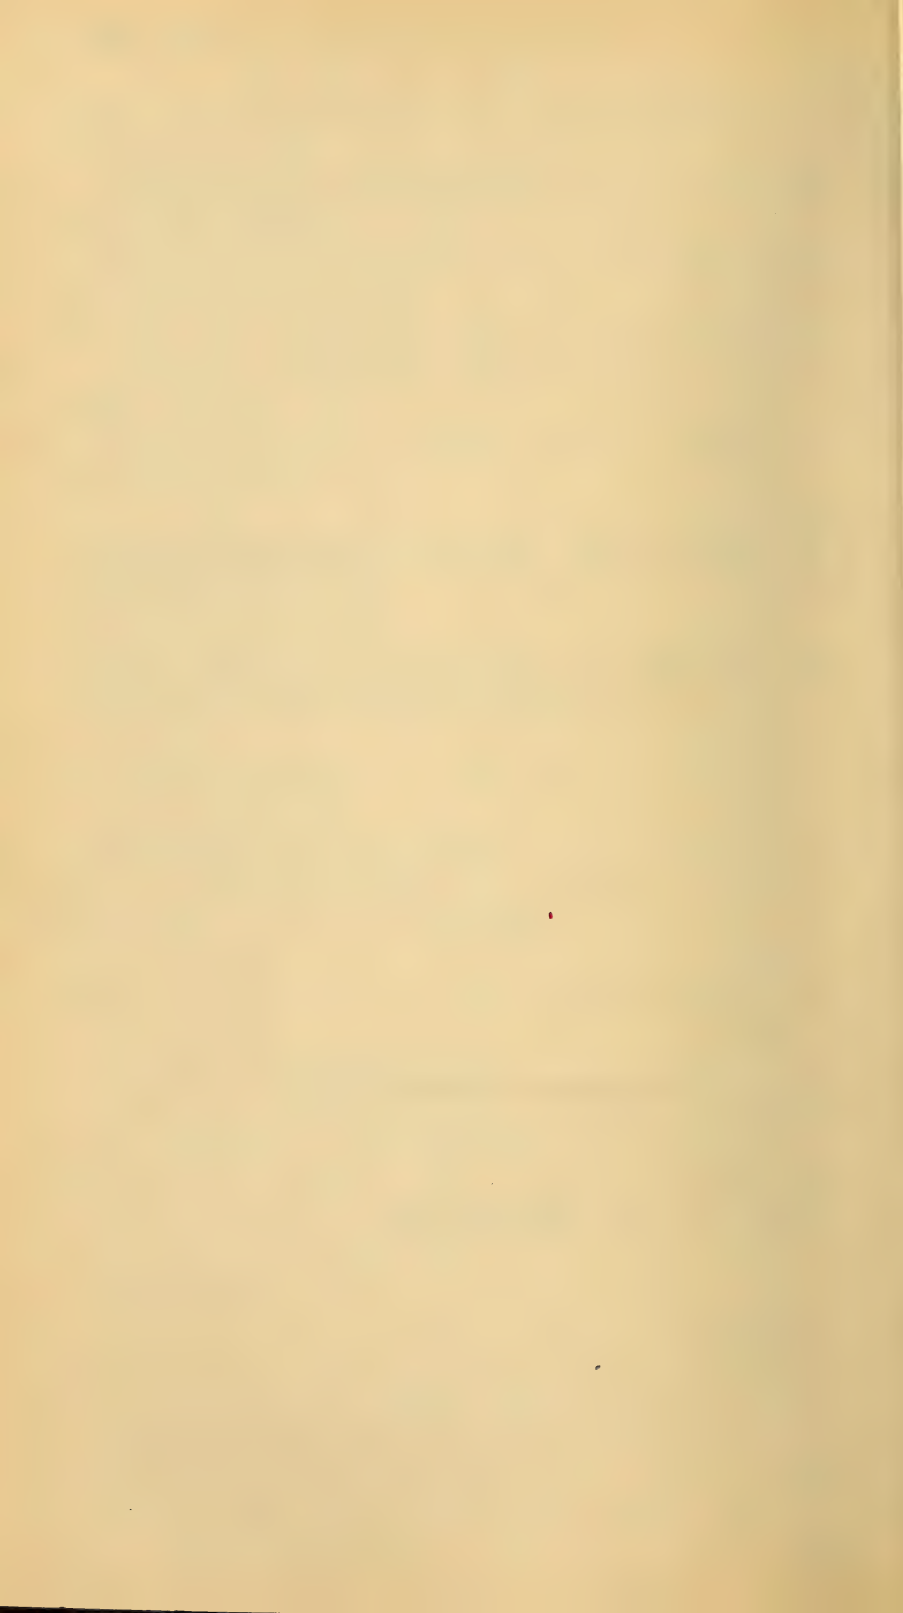

No. 25

June 23, 1910

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHTED BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books in class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8035 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 23, 1910, inclusive, 1332 were of class "a" and 6703 of class "b." Of the 6703 books of class "b" each book was sent up on the day it was received in the Copyright Office.

List of Copyright Renewals

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

PART 1, GROUP 1

**BOOKS**

---

**New Series, Volume 7, Group 1**

**No. 27**

**July 7, 1910**

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8393 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to July 7, 1910, inclusive, 1340 were of class "a" and 7053 of class "b." Of the 7053 books of class "b" each book was sent up on the day it was received in the Copyright Office.

## BOOKS

### GROUP 1

#### Abbott, Twyman Osmand.

**BOOKS**

---

New Series, Volume 7, Group 1

No. 28

July 14, 1910

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 328 books received and drawn up into the Library of Congress from the Copyright Office from July 1 to July 14, 1910, inclusive, 8 were of class "a" and 320 of class "b." Of the 320 books of class "b" each book was sent up on the day it was received in the Copyright Office.

## BOOKS

### GROUP 1

#### **Adams, Charles Laban.**

Descriptive geometry. pt. 3. By Charles L. Adams ...  
Boston, Geo. H. Ellis co., 1910.

New Series, Volume 7, Group 1

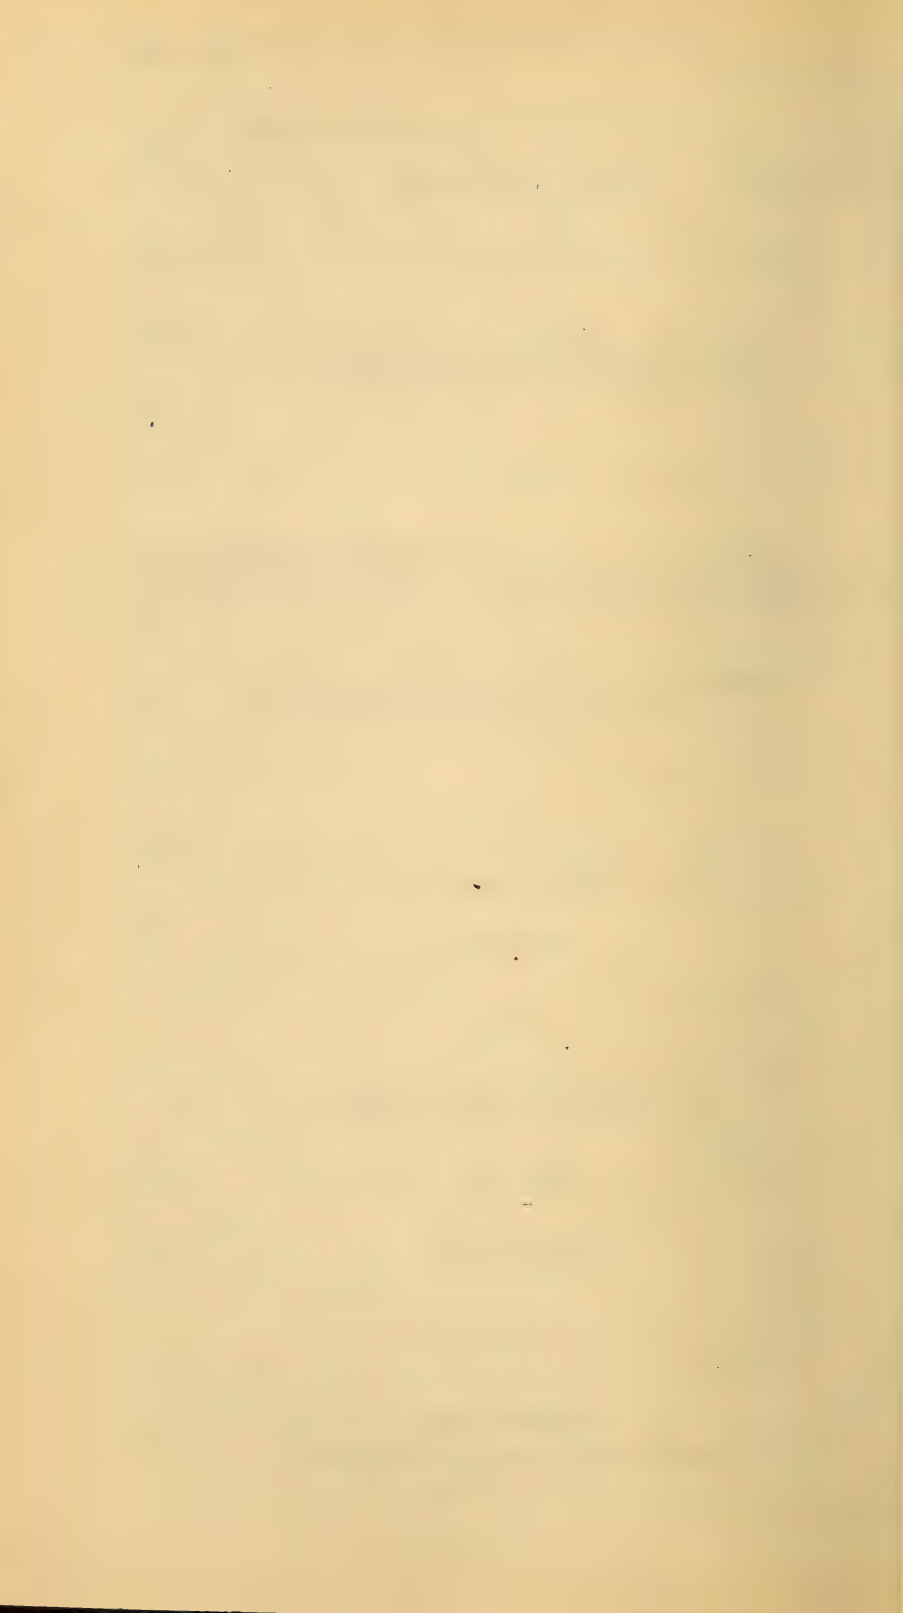

No. 29

July 21, 1910

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles, of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 486 books received and drawn up into the Library of Congress from the Copyright Office from July 1 to July 21, 1910, inclusive, 10 were of class "a" and 476 of class "b." Of the 476 books of class "b" each book was sent up on the day it was received in the Copyright Office.

List of Copyright Renewals

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A--Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 704 books received and drawn up into the Library of Congress from the Copyright Office July 1 to July 28, 1910, inclusive, 11 were of class "a" and 693 of class "b." Of the 693 books of class "b" each book was sent up on the day it was received in the Copyright Office.

## BOOKS

### GROUP 1

#### **Akademischer verein Hütte, Berlin.**

**BOOKS**

---

New Series, Volume 7, Group 1

No. 31

August 4, 1910

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 933 books received and drawn up into the Library of Congress from the Copyright Office July 1 to August 4, 1910, inclusive, 17 were of class "a" and 916 of class "b." Of the 916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

**BOOKS**

---

New Series, Volume 7, Group 1

No. 32

August 11, 1910

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A--Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 1072 books received and drawn up into the Library of Congress from the Copyright Office July 1 to August 11, 1910, inclusive, 23 were of class "a" and 1049 of class "b." Of the 1049 books of class "b" each book was sent up on the day it was received in the Copyright Office.

**New Series, Volume 7, Group 1**

**No. 33**

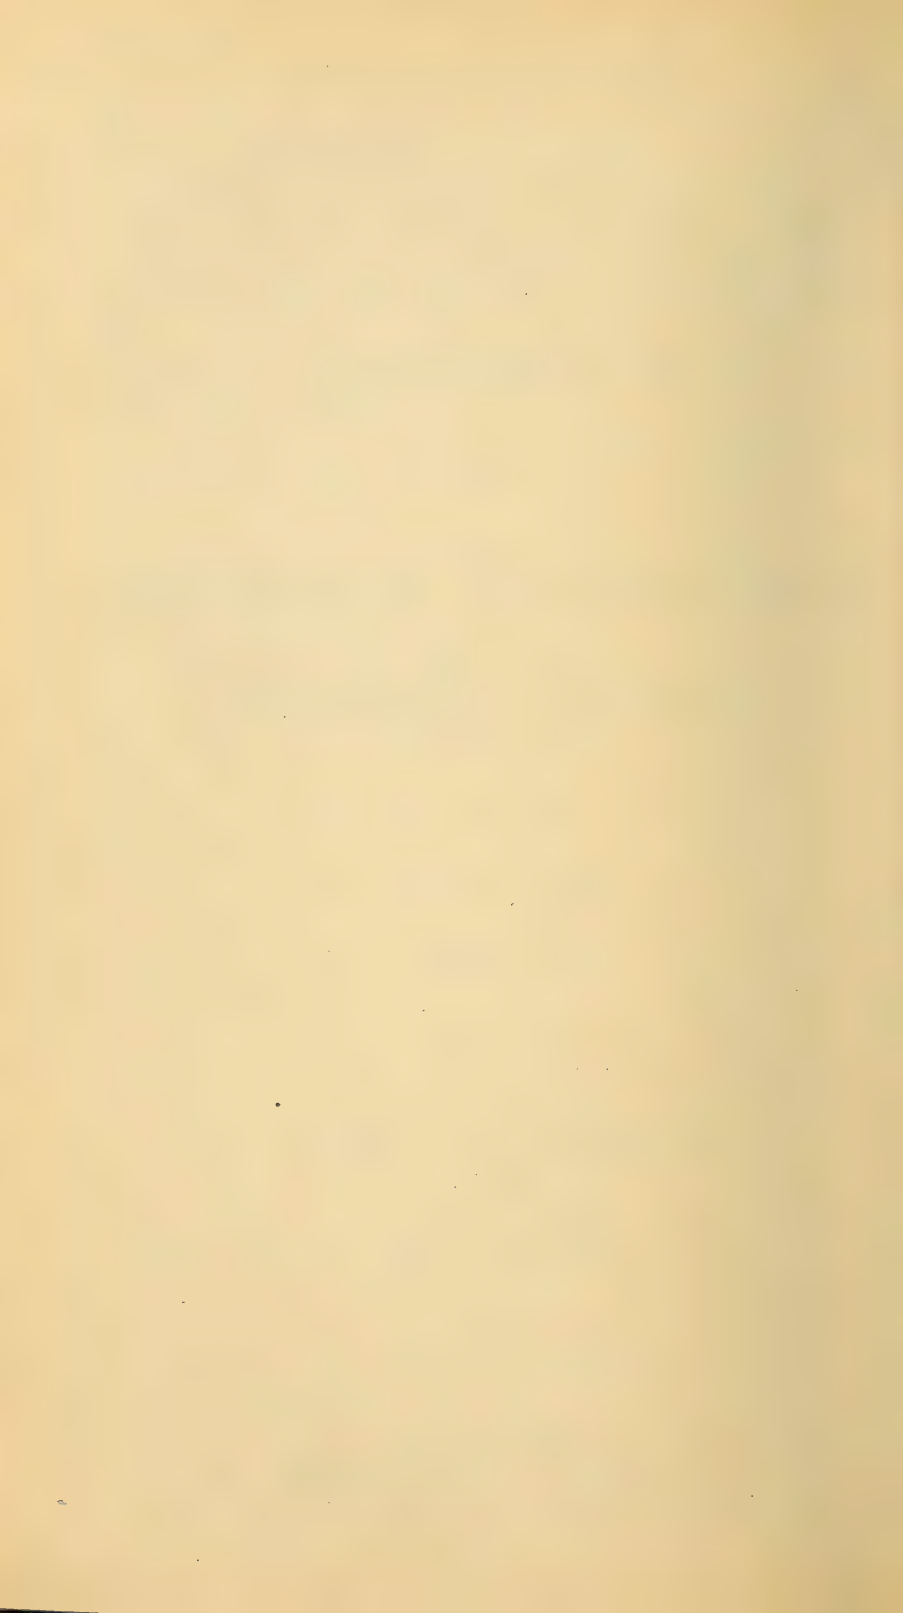

**August 18, 1910**

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 1257 books received and drawn up into the Library of Congress from the Copyright Office July 1 to August 18, 1910, inclusive, 39 were of class "a" and 1218 of class "b." Of the 1218 books of class "b" each book was sent up on the day it was received in the Copyright Office.
